

Corporate Governance Report

Cork is a “living” material, each piece of cork is unrepeatable, making it unique and eternally surprising.

3. Number of treasury shares, the percentage of share capital that it represents and corresponding percentage of voting rights that corresponded to treasury shares (Article 245-A/1/a).

As at 31 December 2019, Corticeira Amorim held no treasury shares and it did not engage in transactions during 2020, reason why as at 31 of December 2020 the Company did not own treasury shares.

4. The disclosures of important agreements to which the Company is a party and that come into effect, amend or terminated in cases such as a change in the control of the Company after a takeover bid, and the respective effects, except where due to their nature, would be seriously detrimental to the Company; this exception does not apply where the Company is specifically required to disclose said information pursuant to other legal requirements (Article 245-A/1/j).

Corticeira Amorim has been reviewing its corporate governance since 1999, the date on which the Portuguese Securities Market Commission (CMVM) published the first recommendations on the governance of listed companies, aiming at the improvement of mechanisms for the protection of investors in securities markets. The Company compares it with, on the one hand, what are considered best practices, and on the other, with the circumstances of its activity and the challenges it has to meet. As a result, it has been implementing a set of measures which, overall, have the main objectives of strengthening the internal systems of control and supervision, enhancing transparency, fostering the participation of shareholders in the life of the Company and ensuring the sustained creation of shareholder value.

This document describes corporate governance policies and practices adopted by the Company, while also providing a qualitative assessment of them compared with the best practices listed in the CMVM corporate governance code of the Portuguese Institute of Corporate Governance (IPCG).

Section 8 of this report also includes the information referred to in article 447 of the Portuguese Companies' Code, in article 245-A(1) (r) of the Portuguese Securities' Code (diversity in management and supervisory bodies) and in article 5 of Law no. 62/2017 of 1 August (balanced representation of women and men in management and supervisory bodies).

Law no. 50/2020, of 25 August transposed to the Portuguese legal system Directive (EU) no. 2017/828 on the rights of listed company shareholders as regards long-term engagement, which entailed the repeal of Law no. 28/2009, of 19 June that previously governed the duty to present a remuneration policy and, at the same time, introduced rules in the Portuguese Securities Code regarding i) the acceptance of the remuneration policy for members of the management and supervisory bodies of issuers of shares admitted to trading on a regulated market and (ii) the remuneration report. Bearing in mind that the acceptance of and decision on the remuneration policy, as provided for in the aforementioned Law no. 50/2020, will take place in 2021 and consequently the remuneration report will be presented in 2022; for a better understanding of the remuneration policies and practices adopted by the Company in the year under review, the information previously required by paragraph 3 of Law no. 28/2009 of 19 July (Remuneration Policy) is maintained.

Part I – Mandatory Information on Shareholder Structure, Organisation and Corporate Governance

The Company has not entered into any agreements as described in this paragraph except for the normal “change of ownership” clauses included in certain loan agreements entered into during the normal course of operations and which, on a case-by-case basis, have been analysed and their contractualisation considered appropriate for the Company’s interests.

At 31 December 2020 there were covenants requiring the maintenance of Corticeira Amorim’s controlling interest in contracts regarding loans totalling 65 million euros (31-12-2019: sixty million euros). In the case of change of shareholder control, the contracts provide the possibility - but not the obligation - of early repayment of the amounts loaned. In addition, the Company has significant liquidity reserves, as detailed in the Notes to the consolidated accounts - Note 22; specifically, at 31-12-2020 there were 260.9 million euros in contracted, undrawn credit lines (31-12-2019: 188 million euros).

This circumstance is not likely to impair the free assessment by shareholders of the performance of the members of the Board of Directors.

5. A system that is subject to the renewal or withdrawal of countermeasures, particularly those that provide for a restriction on the number of votes capable of being held or exercised by only one shareholder individually or together with other shareholders.

The Articles of Association of the Company do not include measures of this type and, to the best knowledge of Corticeira Amorim, there are no other arrangements and/or measures with that same goal.

6. Shareholders’ agreements that the Company is aware of and that may result in restrictions on the transfer of securities or voting rights (Article 245-A/1/g).

Corticeira Amorim has no knowledge of the existence of any shareholders’ agreements that might lead to the aforementioned restrictions.

[B.] Corporate Boards and Committees

Corticeira Amorim is the holding company of an economic group based in Portugal, solidly established internationally, through subsidiaries, associate companies and joint ventures. The vast portfolio of products and solutions it continually develops responds to diverse markets and consumers.

The governance of Corticeira Amorim, addressing the challenges arising from this framework, advocates a policy of diversity in the composition of its corporate bodies, in particular the Board of Directors and the Supervisory Board, as a way to:

- Promote diversity in the composition of the respective body;
- Enhance the performance of each member and, jointly, of each body;
- Stimulate comprehensive, balanced and innovative analysis and, consequently, allow informed and agile decision-making and control processes;
- Contribute to the increase of innovation and self-renewal of the Company, for its sustainable development and creation of value for the shareholders and other stakeholders in the long term.

Corticeira Amorim therefore acknowledges the need to continually promote diversity in its corporate bodies and other management bodies, particularly the Board of Directors and the Supervisory Board, especially in the following areas:

- Adequate academic qualifications and professional experience relevant to the performance of the specific corporate position which, in the respective corporate body as a whole, gather together the necessary competences to ensure the capable performance of the role of that body;
- Inclusion of members from different age groups, combining the know-how and experience of older members with the innovation and creativity of younger members, so as to enable the respective body to steer towards an innovative business vision and prudent management of risks;
- Promotion of gender diversity and, consequently, an adequate balance of sensitivities and style of decision-making within the respective body.

As regards the Board of Directors and the Supervisory Board, compliance is verified with the policy indicated in section 19 (Board of Directors) and 33 (Supervisory Board) of this report. It is to be noted, in particular, that in both cases the body includes 33.3% of people of the under-represented gender, this gender being female in the first case and male in the second.

As detailed in section 15 of this report, the Company has adopted a system of corporate governance commonly known as the “strengthened Latin” model, which is based on a clear separation between management and supervisory bodies as well as double

supervision through a supervisory board and a statutory auditor.

b) Exercising the right to vote

12. Any restrictions on the right to vote, such as restrictions on voting rights subject to holding a number or percentage of shares, deadlines for exercising voting rights, or systems whereby the financial rights attaching to securities are separated from the holding of securities (Article 245-A/1/f).

There are no statutory guidelines providing for the existence of shares that do not carry voting rights or determining that voting rights exceeding a certain threshold shall not be counted if such votes are cast by only one shareholder or by a shareholder who is related to that shareholder. The Articles of Association do not envisage mechanisms that aim to cause a time lag between the entitlement to receive dividends or subscribe for new securities and the voting rights of each ordinary share.

Each share is entitled to one vote.

The blocking of shares to attend the General Meeting must be made at least five business days before the date designated for the respective meeting. The same rule applies when a General Meeting is scheduled for a later date, when the initial session of the General Meeting is suspended.

The Articles of Association provide for the possibility of shareholders voting by mail, provided that the ballots reach the Company at least three business days before the General Meeting. Postal ballot forms must reach the registered office of the Company not less than three business days (by 6.00 p.m.) before the Annual General Meeting. Votes sent by mail are equivalent to negative votes for proposals submitted after the date on which such votes were cast. The presence of the shareholder at the General Meeting revokes the vote it may have sent by mail.

Corticeira Amorim's Articles of Association allow electronic voting, provided that there are adequate technical resources available to enable checking the validity of electronic votes and ensuring their data integrity and confidentiality. Votes sent by electronic means must be received by the Company by the third business day prior to the General Meeting. The Chairman of the General Meeting must check prior to the convening of the General Meeting, the existence of technical means and communication to ensure the safety and reliability of the votes cast. If the Chairman of the Board of the General Meeting decides that the technical requirements for voting by electronic means are met, such information shall be included in the Notice calling the meeting. Such requirements were not met in 2020. Votes sent by electronic means are equivalent to negative votes for proposals submitted after the date on which such votes were cast. The presence of the shareholder at the General Meeting revokes the vote it may have sent by mail or by electronic means.

In 2020, in view of the health crisis experienced around the world, Corticeira Amorim implemented a wide range of measures to

protect and safeguard the health and well-being of its stakeholders, including its shareholders and members of the governing bodies. Therefore, also in line with the CMVM's recommendations, Corticeira Amorim decided, given that there was no statutory provision forbidding it, that the Shareholders' General Meeting of 26 June 2020 would be held exclusively by telematic means, pursuant to Article 377(6)(b) of the Portuguese Companies' Code and that the right to vote would be exercised by prior electronic correspondence, pursuant to Article 384(8) and (9) of the Portuguese Companies' Code and Article 22 of the Portuguese Securities' Code.

Postal ballot forms are available from Corticeira Amorim's registered office (Rua Comendador Américo Ferreira Amorim, no. 380 – 4535-186 Mozelos - Portugal) and from the Company's website (www.corticeiraamorim.com). At the request of a shareholder, such postal ballot forms may be provided by e-mail.

13. Details of the maximum percentage of voting rights that may be exercised by a single shareholder or by shareholders that are in any relationship as set out in Article 20/1.

The Articles of Association do not provide for any limit on the number of votes that each shareholder (either separately or jointly with other shareholders) is entitled to cast or exercise.

14. Details of shareholders' resolutions that, imposed by the Articles of Association, may only be taken with a qualified majority, in addition to those legally provided, and details of said majority.

The Company's Articles of Association establish specific requirements for convening/ decision-making quorums, for the following situations:

- a. Identical to those of general law:
 - Removal from office of a director elected under the special rules set out in article 392 of the Portuguese Companies' Code - the removal from office will not become effective if shareholders accounting for at least 20% of the share capital have voted against the removal of such director, irrespective of the just cause invoked for such removal from office;
- b. Higher than those of general law:
 - Restriction or withdrawal of pre-emption rights in share capital increases – the Company's Articles of Association require that the Annual General Meeting be attended by shareholders accounting for at least 50% of the paid-up share capital;
 - Exercising the right to vote – the need to own at least one share of the Company's stock at least five business days prior to the date scheduled for holding the General Meeting;
 - In order that a General Meeting requisitioned by shareholders may pass resolutions – it is required that the General Meeting be attended by shareholders owning shares representing at least the minimum amount of share capital required by law to legitimise the reason for calling such meeting;
 - Change in Board composition – such resolution requires the approval of shareholders who represent not less than 2/3 of the total share capital;
 - Winding-up the Company – such resolution requires the approval of shareholders representing at least 85% of the paid-up share capital.

II. MANAGEMENT AND SUPERVISION

a) Composition

15. Details of corporate governance model adopted.

The Company has adopted a system of corporate governance commonly known as the “strengthened Latin” model, which is based on a clear separation between management and supervisory bodies as well as double supervision through a supervisory board and a statutory auditor.

The Board of Directors considers that the adoption of this model has resulted in the constitution of a supervisory body with stronger and effective supervisory powers composed entirely of members subject to an incompatibility regime and broader independence regulations. It also considers that attributing these powers to an autonomous body – the Supervisory Board – helps create an efficient corporate governance model because it establishes a clear division between the management and supervisory bodies, avoiding the granting of supervisory powers to individual members of the Board of Directors, which by law is a collegial body.

As a consequence, the Board of Directors is confident that the corporate governance model adopted is suitable for the specific circumstances of Corticeira Amorim for the following reasons:

- It embodies a framework of principles of corporate governance and good practices designed to promote greater transparency and a high level of professionalism and competence;
- It ensures the alignment of interests across the Organisation, specifically among shareholders, members of the governing bodies, directors and officers and other employees of the Company;
- It encourages shareholder participation in the life of the Company;
- It fosters the efficiency and competitiveness of Corticeira Amorim.

Corticeira Amorim encourages an internal reflection on corporate governance structures and practices adopted by the Company by comparing their efficiency with the potential benefits to be gained from implementing other practices and/or measures established as a reference in the Portuguese Institute of Corporate Governance (IPCG) Corporate Governance Act or by other organisations.

This matter – as well as Corticeira Amorim’s organisational development issues – has been reviewed by the Executive Committee. Reflection on the corporate governance structure itself has been conducted by the Executive Committee and by the Board of Directors.

16. Articles of association rules on the procedural and material requirements governing the appointment and replacement of members of the Board of Directors, the Executive Board and the General and Supervisory Board, where applicable (Article 245-A/1/h).

The rules governing the **appointment and replacement** of members to the board of directors are those provided for in law, in addition to a number of specific features set out in the Company’s Articles of Association:

The election of members to the board shall be done on the basis of lists specifying the office to be filled by each Director. The voting shall be carried out in the following manner:

First: one Director shall be elected separately from among the people proposed on the lists subscribed by the groups of shareholders who own between 10% and 20% of the share capital. Each list must propose at least two eligible persons for each office to be filled, but the same shareholder may not subscribe to more than one list. If, on a first poll, there are lists submitted by more than one group of shareholders, then a poll shall be first taken among all such lists and, thereafter, among the names of the candidates listed in the winning list. The lists of candidates may be submitted to the General Meeting before the business on the agenda relating to the election of Directors starts to be discussed;

Second: the General Meeting shall elect the remaining directors. All shareholders present may take part in the respective resolution, regardless of whether or not they signed or voted on any of the lists of the first phase. The General Meeting cannot elect the remaining Directors until it has elected one of the nominees on the lists of the first phase, unless no list has been proposed.

The term of office of the Board members is three calendar years. At the end of the Directors’ term, the shareholders must elect new directors or re-elect - one or more times - current Directors.

At the time of voting the management report, the annual financial statements and the proposal for appropriation of profit, the Annual General Meeting may decide to remove any or all directors from the Board. This will not imply the payment of any compensation to any Director so removed from office regardless of whether a Director’s discharge from employment has been for cause or without cause. However, this provision will not apply to a Board member elected under special election procedures on a first poll if members holding at least a 20% stake in the share capital of the Company resolve against removing any such Director from office regardless of the cause for a Director’s discharge from employment.

When a Director is declared to be definitively absent, and there are no substitutes, he /she shall be replaced by co-option, unless the directors in office are not sufficient in number for the board to function. If there is no co-option within 60 days of the absence, the supervisory board appoints a replacement. The co-option and appointment by the supervisory board shall be subject to ratification at the next General Meeting.

If a director elected under the special rules of the first stage is absent permanently, and there is no respective substitute, a new election shall be held, at which the special rules of the first phase apply, with necessary adaptation.

The appointment and replacement of members of the Board of Directors and of the Supervisory Board also takes into account the Policy of Promoting Diversity in the Company’s Corporate Bodies described in the comment to Recommendation I.2.1. of this report, with the aim of achieving the objectives referred to therein. The actual diversity of its composition (age, gender, qualifications and professional background) is detailed in Section 19 of this report.

17. Composition of the Board of Directors, with details of the Articles of Association’s minimum and maximum number of members, duration of term of office, number of effective members, date when first appointed and end of the term of office of each member.

According to the Articles of Association, the Company is administered by a Board of Directors composed of a chairman, a vice-chairman and one to nine other members. In the current term (2020-2022), the Board of Directors consists of a chairman, a vice-chairman and four members, all incumbent members.

The duration of the term of office of the Board of Directors is three calendar years⁴.

4. At the time of voting the management report, the annual financial statements and the proposal for appropriation of profit, the Annual General Meeting may decide to remove any or all directors from the Board. This will not imply the payment of any compensation to any Director so removed from office regardless of whether a Director's discharge from employment has been for cause or without cause. However, this provision will not apply to a Board member elected under special election procedures on a first poll if members holding at least a 20% stake in the share capital of the Company resolve against removing any such Director from office regardless of the cause for a Director's discharge from employment.

18. Distinction to be drawn between executive and non-executive directors and, as regards non-executive members, details of members that may be considered independent.

Considering the composition of Corticeira Amorim's **Board of Directors** mentioned in the preceding paragraph (six effective members), this body delegated the executive management to an Executive Committee composed of three members, i.e., in a number equal to the non-executive directors:

Executive members:

Chairman: António Rios de Amorim
Vice-Chairman: Nuno Filipe Vilela Barroca de Oliveira
Board Member: Fernando José de Araújo dos Santos Almeida

Non-executive members:

Board Member: Cristina Rios de Amorim Baptista
Board Member: Luisa Alexandra Ramos Amorim
Board Member: Juan Ginesta Viñas

The Board of Directors considers that this delegation of powers is in the interests of the Company, in particular the agility of its decision-making, maintaining a number of non-executive members that it considers appropriate to the functions they perform and the size of the Company. None of the non-executive members are independent.

The size, expertise, and diversity of the Board of Directors, combined with the availability of all the members, which is also reflected in attendance (sections 23 and 29), are appropriate to the size of the Company and the complexity of the risks inherent to its activity, ensuring the full, efficient and diligent exercise of the duties entrusted to this body and to each of its members, whether executive or non-executive.

Organisational Structure of the Company

As detailed in section 9, the role of the Board of Directors is to manage the Company's business and affairs and decide on any matter relating to its management while abiding by the resolutions adopted by the Annual General Meeting or the decisions made by the Supervisory Board whenever required by law or the articles of association. As provided for in law and the articles of association, the Board of Directors has delegated the day-to-day management to an Executive Committee, as described in sections 28 and 29 of this report.

The non-executive members of the Board of Directors regularly attend the monthly meetings of the Board of Directors, which analyse and decide on the evolution of all non-delegable matters and all issues whose relevance, materiality and / or criticality becomes pertinent to their inclusion in the agenda of the Board.

The meetings are organised by the Company Secretary, Pedro Jorge Ferreira de Magalhães, who is present at all meetings. Pedro Magalhães has a broad range of academic and professional qualifications⁶, namely in the areas of environmental, social and corporate governance (ESG) and compliance, which add significant value in terms of supporting decision-making by the management body.

The organisation of meetings allows all Directors – both executive and non-executive Directors – to adequately prepare themselves in advance in order to participate fully in the meeting and to assess and devise measures to improve meeting productivity and organisation efficiency. The calendar of regular Board meetings is agreed upon at the beginning of every financial year so that all members may be able to be present. Any Director, including non-executive directors, may request the inclusion of items / topics in the agenda to be considered by the directors, up to the second business day prior to any board meeting.

Whenever matters are examined and / or decided in which one or more members of the Board of Directors have particular interests which conflict with the interests of the Company, the member(s) in conflict shall inform the Board of this circumstance, providing all necessary information but abstaining from voting on such matters.

A reporting system between the Executive Committee and the Board of Directors has been implemented across the organisation with a view to ensuring alignment of their activities and that the Directors are informed of the activities of the Executive Committee in a timely fashion. The Executive Committee provides in good time and an appropriate manner to the request, all information requested by other Board Members and which are necessary in accordance with their respective duties.

In the scope of its powers, the Board of Directors has timely access to all information, documents and employees, both from the Company and its main subsidiaries, with a view to monitoring the business, evaluating performance and development prospects, and seeking the full explanation of any matter that it deems pertinent.

Thus, in addition to matters which by law or the Articles of Association fall to be considered exclusively by the Board of Directors, non-executive directors are aware of and monitor:

- The progress of the operating activities and the main economic and financial key performance indicators of each Business Unit which forms part of Corticeira Amorim;
- Relevant consolidated financial information: financing, investment, equity to total assets ratio and off-balance sheet liabilities;
- The business carried on by the various support divisions and their impact on the organisation;
- The progress in Research, Development and Innovation (RDI) activities;
- The calendar of the major events of Corticeira Amorim and its Business Units. The Organisation is often represented by one or more non-executive directors at international events, such as trade missions.

Corticeira Amorim’s operating structure is divided into five Business Units.

Adopting a management model based on a strategic-operational holding concept, the Business Units are coordinated by the Executive Board of Corticeira Amorim.

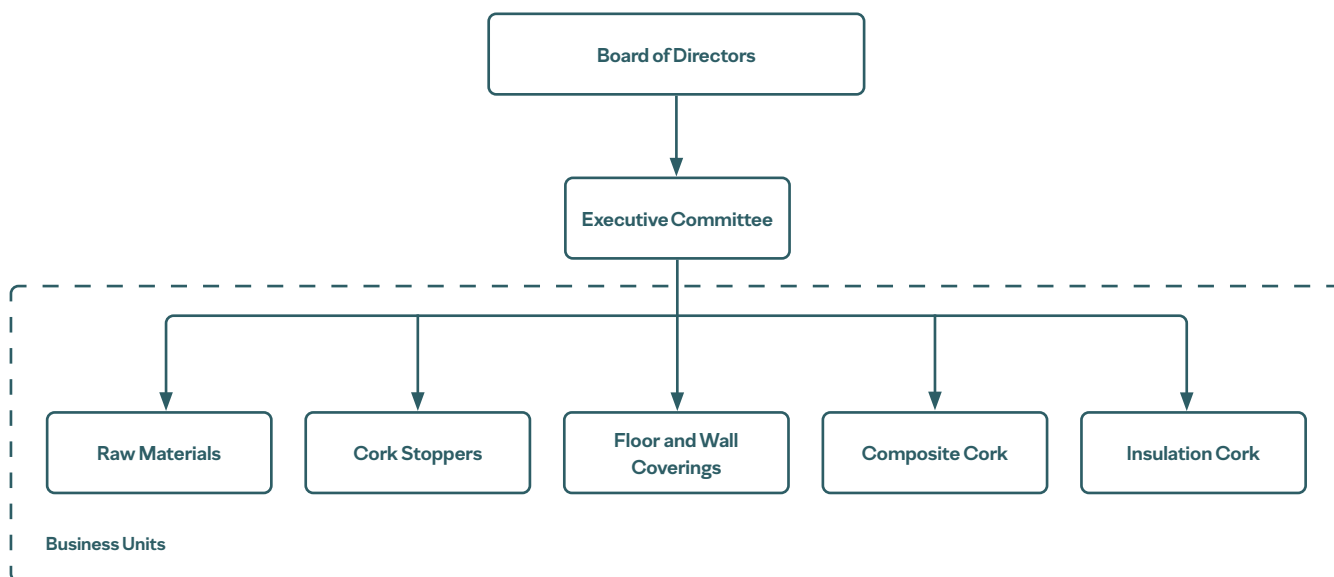

Each Business Unit has a Board of Directors composed of non-executive and executive members. This body is the authority responsible for deciding on all matters deemed relevant.

Each Business Unit has an Executive Management, which is composed of highly qualified, independent executives who have the adequate technical and professional competences to conduct the business and to manage the specific challenges of the business activity developed and foreseen. The executive management in the Business Units is exclusively the responsibility of independent professional managers, i.e. the Chairman of the Board of Directors does not conduct the executive management of the same, which is the responsibility of the CEO of that Business Unit. In the case of the Cork Stoppers Business Unit, given the complexity of the business, there are two independent co-CEOs.

The strategic alignment of the whole organisation is enhanced by the use of the balanced scorecard method, both globally in Corticeira Amorim and individually in the Business Units. In this regard, Corticeira Amorim’s Board of Directors is responsible for approving strategic initiatives and goals (i) for the organisation as a whole, (ii) specifically for Corticeira Amorim, and (iii) for each Business Unit, in close cooperation with the respective Executive Management.

The diagram below shows how the management structure of the business is currently organised.

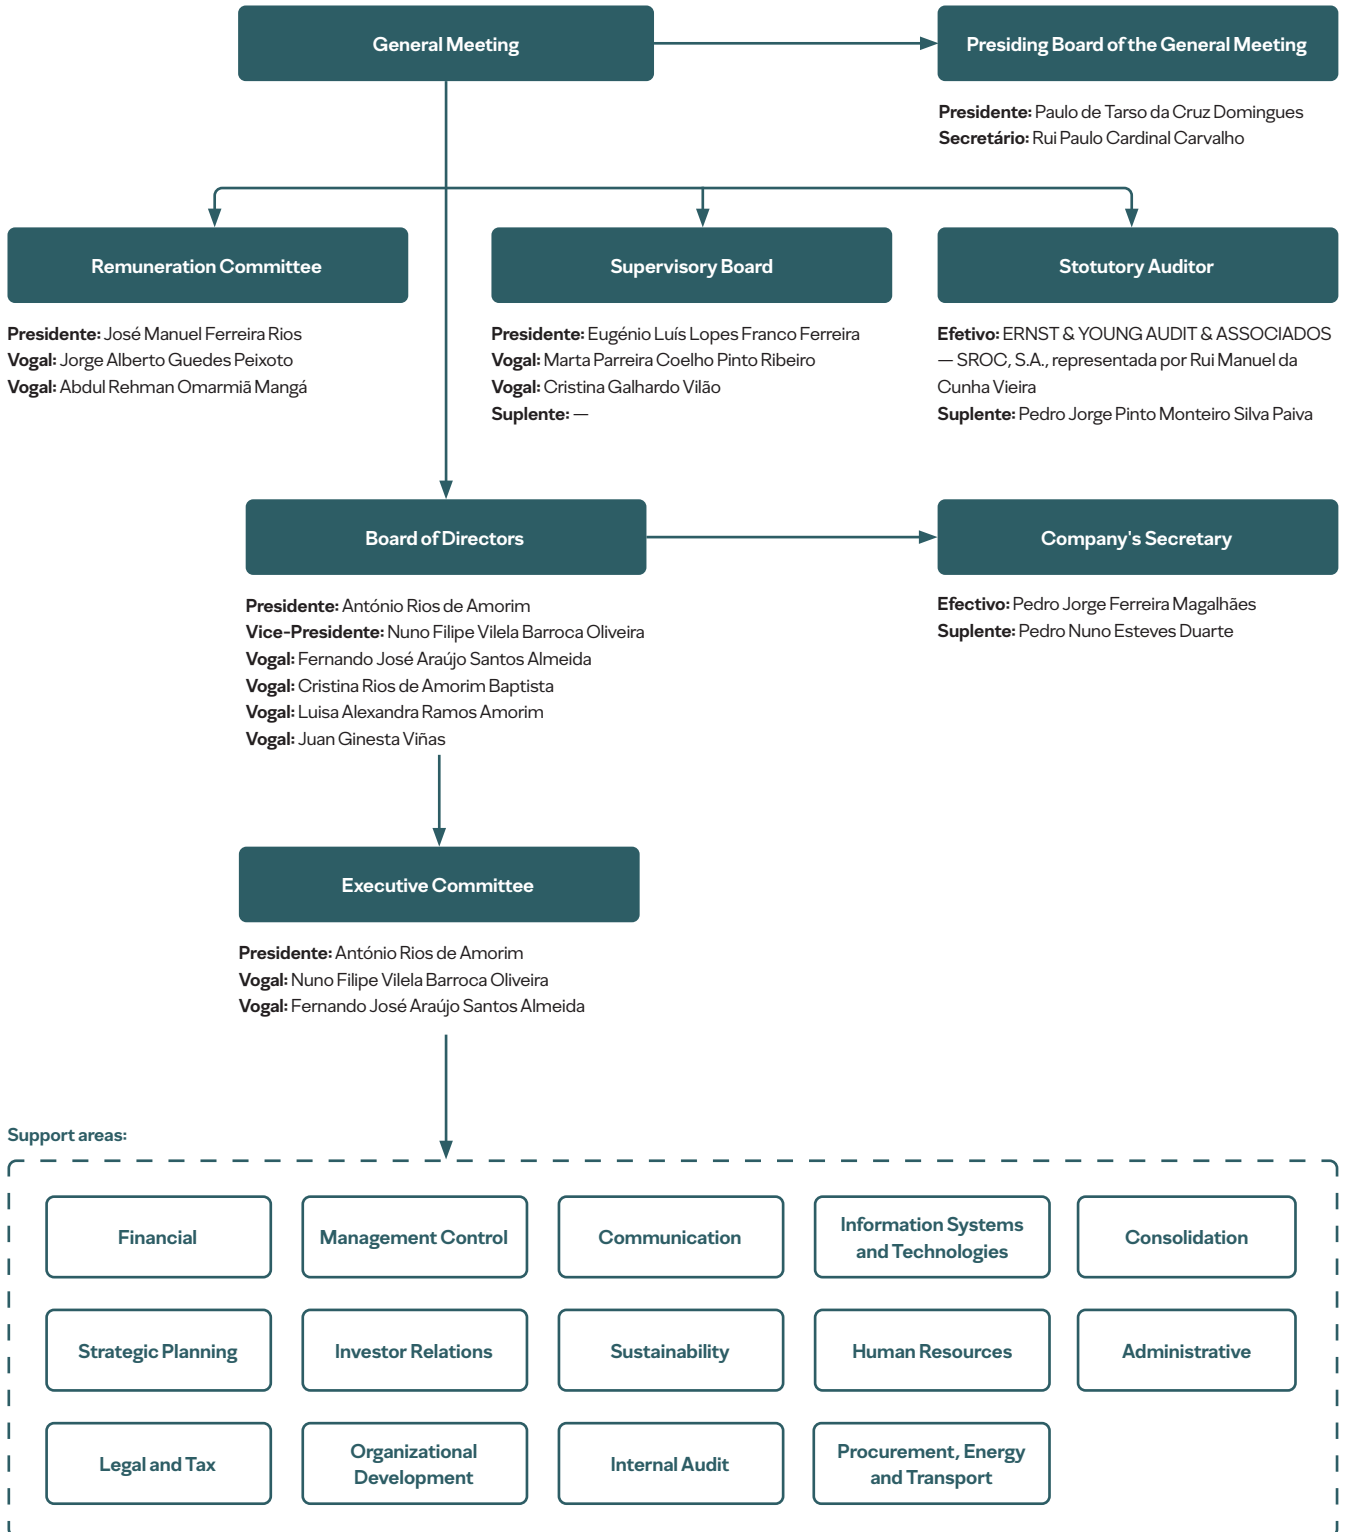

5. The Company’s Articles of Association provide for the possibility of the Board of Directors being advised by one to three advisors, to be appointed by it from among persons of recognised merit and experience, with terms of office coinciding with those of the Directors. The advisors to the Board of Directors are people who advise the Board of Directors about the various issues addressed at board meetings, but they don’t have the right to vote on resolutions passed at meetings. The Board of Directors elected on 26 June 2020 for the 2020-2022 term did not appoint advisors to the Board of Directors.
6. In addition to being Company Secretary, Pedro Magalhães is the Director of the Corticeira Amorim Legal Department, responsible for coordinating the legal division. He is a company lawyer and legal advisor with responsibility for the various Cork Business Units (Raw Materials, Cork Stoppers, Composite Cork, Floor and Wall Coverings and Insulation Cork), as well as cross-cutting support divisions: finance, IT, communication, procurement (including energy, chemicals and insurance) and transport. He has a Bachelor’s Degree in Law (1992, Portuguese Catholic University), a Master’s in Law - Legal-Privatistic Sciences (2012, University of Porto, Faculty of Law) and a PhD in Law (2018, Faculty of Law of the University of Porto). External Reviewer of RED – *Revista Eletrónica de Direito* (Electronic Journal of Law) of the Centre for Legal and Economic Research (C.I.J.E), University of Porto, Faculty of Law. He is the author of the book *Corporate Governance and Company Sustainability - Stakeholders Model versus Shareholders Model* (2019, Livraria Almedina). Included in Legal 500’s General Counsel Powerlit Iberia: Portugal Teams since 2017. Member of the Portuguese Institute of Corporate Governance (IPGC), founding member of Common Home of Humanity and the Association for the Sustainability of the Planetary System (ZERO).

The **Support Divisions** are responsible for monitoring and coordinating the operation of the Business Units and their functional areas, under the coordination of the members of the Executive Committee, as shown in the diagram below.

The activities of the support areas are periodically reported to the Executive Committee, and its activity is accompanied by an Executive Director. In the year being analysed, Nuno Barroca monitored Internal Audit; Fernando Almeida monitored the Strategic Planning, Organisational Development, Information Systems and Technology and Management Control; the remaining areas were monitored by António Amorim.

At intervals deemed appropriate, the managing director of the relevant support division or the Executive Committee or even the Board of Directors may request a review (and they effectively do so) of the activity carried out by the different support divisions in order that the need or opportunity to create new positions or implement new strategies may be considered by the Board of Directors.

b) Functioning

22. Availability and place where rules on the functioning of the Board of Directors may be viewed.

The modus operandi of the Board of Directors of Corticeira Amorim scrupulously complies with all applicable rules of procedure regarding the Board of Directors, specifically those set out in the Portuguese Companies' Code, in the Company's articles of association and in the regulations issued by the CMVM. This already constitutes real rules of procedure, which are adequate to and foster its efficient operation to safeguard the performance of this collegiate body in the efficient pursuit of the interests of the Company and all its shareholders.

Corticeira Amorim therefore considers that the principles of good business practice form part of the business values safeguarded both by the members of this corporate body and by other employees who support and/or advise it, and for this reason it has set out the Company's Code of Business Ethics and Professional Conduct, available on the Company website.

Although there are no formal written internal regulations, the Board of Directors complies with all rules of procedure prescribed by law (Portuguese Companies' Code, Portuguese Securities' Code, regulations and instructions issued by the CMVM) or by the Company's Articles of Association and the above-mentioned Code of Business Ethics and Professional Conduct, which are available on the CMVM website (www.cmvm.pt) or the Company website (www.amorim.com), respectively.

23. The number of meetings held and the attendance report for each member of the Board of Directors.

Pursuant to the Articles of Association, the Board of Directors shall meet when and where corporate interest requires. Thirteen meetings of the Board of Directors were held throughout 2020 (2019: 10 meetings), and all the members of the Board in office attended or were represented at the meetings. The individual and global attendance was of 100%.

24. Details of competent corporate boards undertaking the performance appraisal of executive directors.

Pursuant to the Articles of Association, the General Meeting or a Committee it elects shall decide on the assessment of the performance of the directors, including executive directors.

As stated in section 67 of this report, there is a Remuneration Committee (term of office of three years, 2020 to 2022), which is responsible for carrying out the assessment referred to in this point, and it effectively did so.

25. Predefined criteria for assessing executive directors' performance.

Pursuant to the statement on the policy for remunerations awarded to the Board of Directors approved at the shareholders' General Meeting of 26 June 2020, as proposed by the Company's Remuneration Committee (Section 69), whenever such is adequate and feasible, such remuneration shall primarily consist of a fixed pay (for executive and non-executive directors) plus a variable pay (for executive directors only) as performance-based premium.

The award of the variable pay component of remuneration referred to in the preceding paragraph shall be a bonus resulting from short-term performance evaluation and from the contribution

of the annual performance to medium / long-term economic, environmental and social sustainability of the Organisation.

The actual amount of the variable pay shall depend on the appraisal to be carried out every year by the Remuneration Committee on the performance of the Board members, examining the contribution of each individual executive director to both the Company's profit in the relevant financial year and compliance with the Company's targets and implementation of the medium/ long-term strategies adopted by the Company; the development of the results and the level of compliance with the following strategic objectives: innovation, organisational development and safety, competitiveness, growth, financial soundness and value creation.

The payment of the variable pay component, if any, may be made wholly or in part after determination of the profit (or loss) in respect of a three-year period. There is, therefore, the possibility of the variable pay being reduced if the profit for the year reflects a significant deterioration in the Company's performance in the last financial year or if it is expectable that a significant deterioration will occur in the financial year underway.

26. The availability of each member of the Board of Directors, the General and Supervisory Board and the Executive Board, where applicable, and details of the positions held at the same time in other companies within and outside the group, and other relevant activities undertaken by members of these boards throughout the financial year.

27. Details of the committees created within the Board of Directors, the General and Supervisory Board and the Executive Board, where applicable, and the place where the rules on the functioning thereof is available.

There is an Executive Committee, created by delegation of powers by the Board of Directors. Although there are no formal rules of procedure available for viewing, the functioning of the Executive Committee complies with all the rules governing its work, namely those of the Portuguese Companies' Code, the Articles of Association and the Code of Business Ethics and Professional Conduct and the procedures adopted internally. This constitutes by itself adequate rules of procedure that enable the implementation of the best practices, safeguarding the effectiveness of the Company and creating value for shareholders.

As already referred to regarding the Board of Directors, it should be added that the principles of good business practice are part of the core values upheld by both the members of this committee and the staff members who assist and/or advise them.

28. Composition of the Executive Committee.

The Executive Committee shall consist of three members, i.e., a Chairman and two Members:

Chairman:	António Rios de Amorim
Member:	Nuno Filipe Vilela Barroca de Oliveira
Member:	Fernando José de Araújo dos Santos Almeida

The term of office of the Executive Committee coincides with that of the Board of Directors.

29. Description of the powers of each of the committees established and a summary of activities undertaken in exercising said powers.

The Executive Committee exercises the powers delegated to it by the Board of Directors - in the precise terms provided for in the articles of association and in law, as described in section 9 herein, with a view to streamlining management practices and making possible closer and continuous monitoring of the Company's different areas (management, operations and support) and its operating and business processes.

According to Corticeira Amorim's articles of association, the Executive Committee is vested with the power to implement the decisions made by the Board of Directors, manage the Company's ordinary course of business and implement certain management duties. The activity of the Executive Committee was conducted in 2020 according to these duties, with the purpose of performing:

- The day-to-day management of the Company;
- The implementation of the decisions taken by the Board of Directors;
- The alignment of the activity of the various business units that constitute the Company, and analysis of the respective reporting;
- The budget estimates and setting goals and objectives;

- In terms of human resources: analysis of the evolution of indicators, policy and priorities for training, performance assessment, salary policy;

- Follow up and decisions on investment, loans and taking on liabilities;
- Definition of the internal audit and internal control activities and reporting on the main conclusions;
- Policy definition and decision on priority action in the field of Research, Development and Innovation;
- Monitoring the Corticeira Amorim's share price: transactions, price development, analysts' estimates;
- The analysis and reflection on the corporate governance model and its suitability to the Company and respective goals.

Whenever matters are examined and/or decided in which one or more members of the Executive Committee have particular interests which conflict with the interests of the Company, the member(s) in conflict shall inform the Board of this circumstance, providing all necessary information but abstaining from voting on such matters.

In the scope of its powers, the Executive Committee has timely access to all information and employees, both from the Company and its main subsidiaries, with a view to monitoring the business, evaluating performance and development prospects. Accordingly, the Executive Committee receives notices, work orders and documentation to support all meetings in which it analyses and/or decides on the strategy, implementation and actions and evaluates the results of the various Business Units of Corticeira Amorim; it participates in the management meetings of these Business Units and has broad access to any documents or employees appropriate to the clarifications that it deems pertinent.

With a properly implemented reporting system within the Company, information flows from the members of the Executive Committee to the Directors, thus ensuring that the performance of the members of both the Board and the Committee are aligned and that every director is informed of the work and activities of the Executive Committee in a timely manner.

The Chairman of the Executive Committee, who is also the Chairman of the Board of Directors, provides timely minutes of the Executive Committee meetings to the Chairman of the Supervisory Board.

The Supervisory Board is responsible for monitoring the independence of the Statutory Auditor, especially in relation to the provision of additional services.

I. ARTICLES OF ASSOCIATION

48. The rules governing amendment to the Articles of Association (Article 245-A/1/h).

The rules governing the amendment of the Articles of Association of the Company are those provided for by law, with the addition of the following specific provisions set out in the aforementioned articles: the Company is managed by a Board of Directors consisting of a chairman, a vice-chairman and from one to nine other members. This statutory provision may be amended only with the approval by a majority of shareholders representing at least two-thirds of the Company's share capital.

II. REPORTING OF IRREGULARITIES

49. Reporting means and policy on the reporting of irregularities in the Company.

Corticeira Amorim has a Code of Business Ethics and Professional Conduct, available at: <https://www.amorim.com/en/investors/corporate-governance/corporate-regulation-and-policies/>, which formalises the set of rules and guidelines that should guide the Group's and its employees' decisions and daily actions, both in internal relationships (with other employees) as well as external ones with other business partners (investors, customers, suppliers of goods and services, public and private institutions, local communities and society at large).

Violations of the Code by employees (including members of corporate bodies, directors and workers) of the Organisation must be immediately rectified and all practices contrary to the Code must cease without delay. Regardless of any other liability the transgressor may incur, infractions will be sanctioned in accordance with labour laws and regulations, as well as other legal provisions that must be enforced. In accordance with the law, disciplinary sanctions may include termination of the employment relationship.

The Board of Directors ensures the Code is applied and, whenever necessary, (i) establishes interpretation criteria, sending conclusions to the Supervisory Board and the Legal Department and such interpretations may be disclosed by the same means as the Code; (ii) adopts any appropriate guidelines and procedures to develop the Code.

The Supervisory Board is the governing body responsible for receiving and following up on any reports of irregularities, thereby also ensuring that the Code is applied.

The Internal Audit Department includes in its annual plan of activities the collection of information on incidents and/or violations of the Code of Business Ethics and Professional Conduct, producing an annual report on the subject, which will be submitted to the Supervisory Board for evaluation and approval. Once approved by the Supervisory Board, it will be communicated to the Board of Directors.

All individuals bound by the Code of Business Ethics and Professional Conduct will comply with and contribute to

compliance with this Code and its associated regulations, policies, and principles. To this end, a Procedure for Reporting Irregularities has been established that allows both employees bound by the Code and other interested parties to confidentially report any violation of the principles contained in this Code without fear of reprisals. This procedure is attached to the Code and published on Company's Intranet and Corticeira Amorim's corporate website so that all involved have access to it.

As mentioned above, it is the responsibility of the Supervisory Board, in accordance with its respective Regulations (available at: <https://www.amorim.com/en/investors/corporate-governance/corporate-regulation-and-policies/>) to receive reports of irregularities presented by shareholders, Company employees or others, giving them due treatment.

Such reports shall be addressed to:

Conselho Fiscal da Corticeira Amorim, S.G.P.S., S.A.

Address - Registered office of the Company: Rua Comendador Americo Ferreira de Amorim, n.º 380 – Apartado 20
4536-902 MOZELOS
Telephone: 22747 54 00
E-mail: conselhofiscal.casgps@amorim.com

The Company ensures that the Supervisory Board will be the first to be made aware of the contents of such whistle-blowing reports (no employee of the Company is authorised to open mail specifically addressed to this corporate body or any of its individual members).

It is the Supervisory Board's responsibility, pursuant to the respective Regulations, to review any such reports and ask the Company's other governing bodies and officers for any explanations on the disclosed events and the circumstances surrounding the situation. In dealing with concrete situations, the Supervisory Board is entitled to:

- Suggest measures to prevent such irregularities occurring;
- Report any identified and confirmed irregularities to the Board of Directors and relevant authorities, both internal and external, in accordance with each specific situation.

The Company guarantees that the identity of whistle-blowers will not be disclosed throughout the process, unless they expressly choose to disclose their identity.

Corticeira Amorim believes that there are a number of measures, i.e. (i) the assignment of such responsibilities to the Supervisory Board – a body composed entirely of independent members, thus ensuring the impartial handling and consideration of irregularities reported to the Company; (ii) the non-imposition of the use of a specific format for such reports and the fact that the whistle-blower may use the channels it deems most suitable to make the report; and (iii) the obligation to ensure protection of personal data (scrupulously following the instructions given by whistle-blowers regarding confidentiality) that safeguard the rights of both whistle-blowers and other staff members involved, while ensuring that the reporting process remains simple, and contribute effectively to promoting the impartial investigation and clarification of the situations reported.

III. INTERNAL CONTROL AND RISK MANAGEMENT

50. Individuals, boards or committees responsible for the internal audit and/or implementation of the internal control systems.

Responsibility for internal audit and the implementation of internal control systems lies with the Board of Directors. There is a transversal support area in this respect - Internal Audit, whose monitoring is the responsibility of the Executive Committee, in liaison with the Supervisory Board.

51. Details, even including organisational structure, of hierarchical and/or functional dependency in relation to other boards or committees of the Company.

As mentioned in section 50 above.

52. Other functional areas responsible for risk control.

The main aim of the Board of Directors and the Executive Committee is to establish an integrated overview of critical success factors in terms of profitability and/or associated risks with a view to creating sustainable value for both the Company and its shareholders, being responsible for defining the risk strategy and policies, as well as the parameters for assessing acceptable risk, in liaison with the Supervisory Board.

At the operating level and due to the specific characteristics of Corticeira Amorim's activity, three areas of particularly critical importance are identified, which are analysed and strategically managed by the Executive Committee: market risk, business risk (including exchange rate risk) and the raw material component (cork).

Robust internal control systems are in place, namely management control and budget control, monitored through the balanced scorecard methodology.

Therefore, given the specificities of Corticeira Amorim's framework and business model - in particular (i) the development of an essentially stable business; (ii) the know-how and skills accumulated over 150 years of activity, continuously enhanced through innovation, development and training programmes; (iii) diversification in terms of products, currencies, markets, the vast portfolio of clients (iv) the effective management and monitoring of the business' critical factors by the Board of Directors and other functions related to the management of these factors; (v) the robust control systems implemented and (vi) the dual corporate supervision (Supervisory Board and Statutory Auditor) allow us to conclude that Corticeira Amorim's internal control is structured and sized appropriately for its activity.

53. Details and description of the major economic, financial, and legal risks to which the Company is exposed in pursuing its business activity.

Raw materials (cork) risk:

The management of the procurement, storage and preparation of the single variable common to all business activities of Corticeira Amorim, i.e. the raw material (cork) is centralised in the Raw Materials Business Unit, an autonomous unit with professional and independent management. This allows us to:

- Form a specialised team exclusively focused on raw materials;

- Make the most of synergies and integrate all raw materials (cork) manufactured by other BUs in the relevant BU's production process;
- Improve the management of raw materials from a multinational perspective;
- Strengthen its presence in cork-producing countries;
- Keep an updated historical record of production status by cork-producing forest unit;
- Strengthen relationships with producers, promote forest certification, improve the technical quality of products and enter into research and development partnerships with forestry-related partners;
- Ensure that an optimal mix of raw materials is used to meet market demand for finished products;
- Ensure the supply stability of cork, a critical variable for Corticeira Amorim's operations, over the long term;
- Prepare and propose to the Board of Directors the multi-annual purchasing policy to be implemented.

Market risk and operational business risk:

In the first instance, market risk and business risk are managed by the four Business Units – Cork Stoppers, Floor and Wall Coverings, Cork Composites and Insulation Cork – that are involved in the markets that deal in Corticeira Amorim's finished products.

In devising a strategic plan for these Business Units – a strategic plan based on balanced scorecard methodology – a number of key factors for value creation are identified by using a multifaceted approach that encompasses the outlook for finance, market/customers, processes and infrastructures. Using this approach, strategic objectives and goals are defined as well as the actions required to achieve them.

The adopted method strengthens alignment between the defined strategy and operational planning where such are defined, for a shorter time horizon, the priority actions to develop to reduce risk and ensure sustained value creation. The Executive Management of each Business Unit is responsible for pursuing the executive processes that allow the systematic monitoring of the actions, which are subject to periodic monitoring and monthly evaluation by the Board of Directors of the Business Unit.

Legal risk:

As far as legal risks are concerned, the main risk to the business of Corticeira Amorim and its subsidiaries relates to the potential for loss arising from amendments made to legislation – in particular, labour legislation, environmental regulations and similar –, which could have an impact on Corticeira Amorim's operations and affect its business' performance and profitability.

The Legal Department in cooperation with the Organisational Development and Strategic Planning area seek to anticipate such amendments and adapt corporate governance practices accordingly. The numerous certification processes (food safety, quality, environmental management, human resources, etc.), as described in Chapter 6 of the Management Report, are based on procedures designed, implemented and regularly and strictly audited by certifying organisations, thus guaranteeing the minimisation of such risks. Wherever possible and practicable, the Organisation takes out insurance to mitigate the effects of uncertain but potentially unfavourable events.

Financial risk:

As Corticeira Amorim is one of Portugal's most international companies, it pays special attention to managing exchange rate risk as well as liquidity and interest rate risk.

In addition to the responsibilities of the finance department regarding identification, monitoring and management of the above risks, the main objectives of this department are to assist with the definition and implementation of global financial strategies and with the coordination of the financial management of the group's Business Units. It is structured as follows:

- A Financial Board, which coordinates the financial function at a central level. The FB is responsible for developing policies and measures (to be approved by the Executive Committee) and implementing them, for conducting global dealings with financial counterparts, for monitoring progress and preparing regular reports (to the director responsible for the financial section and to the Executive Committee and the Board of Directors);
- Financial Managers who, at the company level, follow the progress of business deals managing their financial component in accordance with the advocated policies and guidelines, articulating their work performance with the Financial Board.

The financial organisational structure is coordinated as follows:

- Daily and weekly reports and fortnightly debates on financial markets and economic developments that may have an impact on the companies' business;
- Regular (monthly) reports on globally agreed conditions;
- Quarterly meetings of finance managers with a view to reviewing the current specific state of affairs and defining measures to be implemented;
- On the basis of reports submitted to the Board of Directors, the most important aspects of the financial operations (debt, investments, liabilities) shall be discussed.

Cyber risk:

The rapid development of the information society and the resulting competitive advantages for all has led to a growing adoption of information and communication technologies across the entire structure of Corticeira Amorim, including crucial areas such as operations, logistics throughout the production chain, asset management and the development of human resources.

Given this critical nature, network and information security, as a way of guaranteeing the protection and defence of critical infrastructures, is a strategic priority.

Corticeira Amorim is exposed to the risk of digital attacks, namely:

- Systems, networks and operational technology programmes, with potential impacts on the development of the business, whether in terms of production and the associated supply and distribution chain, or in terms of the protection of specific assets (e.g. intellectual property);
- Information technology, which could result in damage or loss resulting from intentional attacks originating from sources external and internal to the Group.

Corticeira Amorim has a specialised team to systematically address these risks with a view to their prevention. In view of growing information security concerns, in 2019 the Executive Board put a programme in place that addresses needs in this area. With the support of an external partner specialised in this area, a diagnosis of the situation was made and a multi-annual intervention plan was drawn up that focuses on the following areas:

- Transformation activities: review and/or implementation of policies and procedures, governance model, techniques, etc.;
- Recurrent activities: such as periodic evaluation with internal and external pentesting, phishing tests, employee training, and awareness and motivation campaigns supported by a communication plan.

On an ongoing basis, the global framework is assessed with regard to new threats, technological evolution and new methodologies, opening up new lines of action whenever necessary, both in the field of transformation activities and recurrent activities.

Under the direction of the Board of Directors and assisted by an Executive Committee or an Executive Director, Corticeira Amorim's support divisions play an important role in managing critical risk factors, including risk identification. The finance department, the organisational development and strategic planning department, the management control department and the internal audit department play an essential role in this regard.

54. Description of the procedure for identification, assessment, monitoring, control and risk management.

The system of internal control, risk management and detection/prevention of irregularities currently implemented in the Company stems from an in-depth and continuous process of improvement and adaptation of internal reflection in the Company, involving both the Board of Directors, in particular its Executive Committee, and the different support areas - in particular the area of Organisational Development and Strategic Planning - or the support of external specialised consultants, where appropriate.

Also noteworthy is the Internal Audit area, whose work has significant impact on reducing the organisation's operational risks and detection/prevention of irregularities and non-conformities. The main tasks are to assess and review internal control systems with a view to optimising resources and safeguarding assets as well as monitoring activities carried out in order to provide the management bodies with a reasonable degree of certainty that business goals will be achieved.

The reporting system implemented in the Company - either at regular intervals or on demand of the Board of Directors, the Executive Committee or officers responsible for the Management - includes both measurement and objective evaluation of such risks which - after being discussed by the Board of Directors or the Executive Committee - will, if appropriate, give rise to the determination of additional or corrective measures whose implementation and impact will be followed up by the governing body that approved such measures.

The growing complexity of the business environment triggers off a close monitoring of the systems implemented in the Company. Such monitoring includes contributions and opinions from both the Supervisory Board and the Statutory Auditor and this leads to the adoption of more effective procedures when it is deemed advisable.

Under the Bylaws of the Supervisory Board, it is this Board's responsibility to monitor the effectiveness of the risk management system, the internal control system and the internal auditing system.

55. Core details on the internal control and risk management systems implemented in the Company regarding the procedure for reporting financial information (Article 245-A/1/m).

In regard to the **preparation and disclosure of financial information - including consolidated**, the Company promotes close cooperation among all those involved in the process to ensure that the production, processing and dissemination of information is adequate and accurate, namely that:

The process of implementing, preparing, and processing financial information, including consolidated information, is dependent on the transaction recording process and support systems. There is an Internal Controls Procedures Manual and an Accounting Manual implemented at the Group level. These manuals contain a set of policies, rules and procedures to (i) ensure that the process of preparation of financial information follows homogeneous principles and (ii) the quality and reliability of the financial information is ensured.

The implementation of accounting policies and internal control procedures relating to the preparation of financial information is subject to evaluation by the internal and external auditors.

The consolidated financial information by Business Unit is assessed, validated and approved by the management of the respective Business Unit, every quarter. This procedure has been consistently adopted by all the Corticeira Amorim's business units.

The consolidated financial information of Corticeira Amorim is approved by the Board of Directors and presented to the Supervisory Board, before its publication.

It is also to be emphasized that the referred Internal Control Procedures Manual contains a set of rules intended to ensure that the process of disclosure of financial information, including consolidated information, guarantees the quality, transparency and fairness in the dissemination of information.

[D.] Remuneration

I. POWER TO ESTABLISH

66. Details of the powers for establishing the remuneration of corporate boards, members of the executive committee or chief executive and directors of the Company.

The Annual General Meeting opted to appoint a Remuneration Committee, taking into consideration the ability and capacity of the members of the Committee to perform the duties assigned to them in an independent manner for their entire term of office, i.e. to define remuneration policies for the members of the governing bodies that foster, over the medium and long term, the alignment of their respective interests with those of the Company.

The adoption of the balanced scorecard methodology, which assesses performance using both financial and non-financial measures, enables the Remuneration Committee to evaluate every financial year, whether or not goals are achieved and to what degree. The balanced scorecard serves also as the basis for preparation of the reports of the Remuneration Committee and the Board of Directors on the remuneration policy for members of the Board and the supervisory board as well as on the remuneration policy for other senior executives and officers, respectively, to be submitted every year to the Annual General Meeting for approval.

Thus,

- The Remuneration Committee of Corticeira Amorim is responsible for setting the fixed and variable remuneration to be awarded to members of the Board of Directors, and also setting the remuneration to be awarded to members of the remaining governing bodies;
- The Board of Directors of Corticeira Amorim is responsible for setting the fixed and variable remuneration to be awarded to its officers.

II. REMUNERATION COMMITTEE

67. Composition of the remuneration committee, including details of individuals or legal persons recruited to provide services to said committee and a statement on the independence of each member and advisor.

Chairman:	José Manuel Ferreira Rios
Member:	Jorge Alberto Guedes Peixoto
Member:	Abdul Rehman Omarmiã Mangá

End of current term of office: 31 December 2022, remaining in office until a new election pursuant to law.

The Remuneration Committee may decide to hire consulting services that it deems appropriate and suitable for the full exercise of its functions, and must ensure that the selection of the respective

providers obeys criteria of competence and independence. In the financial year under review, no natural or legal person was hired to assist the Remuneration Committee.

The Remuneration Committee met five times in 2020 (2019: five). The global attendance rate was 100%.

It is the responsibility of this Committee to present the Remuneration Policy to be submitted to the Shareholders' General Meeting regarding the remuneration to be paid to members of the corporate bodies (Presiding Board of the General Meeting, Board of Directors, Supervisory Board and Statutory Auditor). It is also responsible for deciding on the remuneration (fixed and/or variable) of each director, which directors' remuneration consists of profit sharing as well as the percentage attributable to each of these.

The members of Corticeira Amorim's Remuneration Committee should not be formally considered independent (although none of them are on the Company's the Board of Directors). It is generally believed – particularly by the Annual General Meeting which elected the Committee members – that they have adequate technical skills, practical experience, judgement and ethics to enable them to fully protect the interests entrusted to them.

68. Knowledge and experience in remuneration policy issues by members of the Remuneration Committee.

Members of the Remuneration Committee were selected on the basis of their wide experience in managing human resources, monitoring and benchmarking other companies' remuneration policies and practices and their knowledge in terms of best remuneration practices and labour law.

III. REMUNERATION STRUCTURE

69. Description of the remuneration policy of the Board of Directors and Supervisory Boards as set out in Article 2 of Law No. 28/2009 of 19 June.

Under the proposal submitted by the Company's Remuneration Committee, the shareholders' General Meeting held on 26 June 2020 approved the following remuneration policy:

1. The remuneration of the **group chairing the General Meeting** is in the form of an attendance fee. This is established for the entire term of office, considering the characteristics of the Company and market practices;
2. In line with market practice and the duties and responsibilities inherent in the position held by the **members of the Supervisory Board** as well as their technical and professional knowledge and skills required for carrying out the supervisory functions, these members shall be paid exclusively a fixed remuneration payable in 12 instalments per year;
3. The remuneration of the **Statutory Auditor** is in the form of a provision of services. This is established annually, considering the characteristics of the Company and market practices;
4. The **members of the Board of Directors** shall be paid adequate remuneration taking into account:
 - The individual remuneration package agreed upon between the Company and each Director;
 - Observance of the principles of internal equity and external competitiveness, taking into account relevant information disclosed by the main Portuguese economic groups on their remuneration policies and practices;
 - Whenever such is adequate and feasible, such remuneration shall primarily consist of a fixed pay (for executive and non-executive directors) plus a variable pay (for executive directors only) as performance-based premium;
 - The award of the variable pay component of remuneration referred to in the preceding paragraph shall be a bonus resulting from short term performance evaluation and from the contribution of the annual performance to medium / long term economic, environmental and social sustainability of the Organisation;
 - The actual amount of the variable pay shall depend on the appraisal to be carried out every year by the Remuneration Committee on the performance of the Board members, examining the contribution of each individual executive director to both the Company's profit in the relevant financial year and compliance with the Company's targets and implementation of the medium/long-term strategies adopted by the Company; the development of the results

and the level of compliance with the following strategic objectives: innovation, sustainability, organisational development and safety, competitiveness, growth, financial soundness and value creation;

- The payment of the variable pay component, if any, may be made wholly or in part after determination of the profit (or loss) in respect of a three-year period. There is, therefore, the possibility of the variable pay being reduced if the profit for the year reflects a significant deterioration in the Company's performance in the last financial year or if it is expected that a significant deterioration will occur in the financial year underway;
 - The members of the Board of Directors are prohibited from concluding contracts with the Company or with its subsidiaries and/or companies in which it holds an interest, which may mitigate the risk inherent to the variability of the remuneration as determined by the Company.
5. It is the Company's policy to assign the following duties to the members of its governing bodies:
- The allotment of shares and/or options to acquire shares or based on share price variation; or
 - Any retirement benefit scheme to members of the governing bodies.

70. Information on how remuneration is structured so as to enable the aligning of the interests of the members of the Board of Directors with the Company's long-term interests and how it is based on the performance assessment and how it discourages excessive risk taking.

The remuneration policy approved by the General Meeting and described in section 69 is fully adopted.

71. Reference, where applicable, to there being a variable remuneration component and information on any impact of the performance appraisal on this component.

The remuneration policy approved by the General Meeting and described in section 69 is fully adopted. The executive members of the Board of Directors earn a variable remuneration component which depends on the evaluation of their performance, in particular the respective contribution either to the profit obtained in the financial year in question or to achieving goals and implementing the strategies defined by the Company for the medium/long term: the evolution of results and the level of achievement of the strategic objectives of innovation, sustainability, organisational development and security, competitiveness, growth, financial solidity and value creation.

72. The deferred payment of the remuneration's variable component and specify the relevant deferral period.

The remuneration policy approved by the General Meeting and described in section 69 is fully adopted. In those terms, the payment of the variable pay component, if any, may be made wholly or in part after determination of the profit (or loss) for the years in respect of the whole term of office. There is, therefore, the possibility of the variable pay being reduced if the profit for the year reflects a significant deterioration in the Company's performance in the last financial year or if it is expected that a significant deterioration will occur in the financial year underway.

In the financial year under review, there were no deferred payments of any variable component.

73. The criteria whereon the allocation of variable remuneration as shares is based, and also on maintaining Company shares that the executive directors have had access to, on the possible share contracts, including hedging or risk transfer contracts, the corresponding limit and its relation to the total annual remuneration value.

Variable remuneration in the form of shares as described in this section does not exist.

74. The criteria whereon the allocation of variable remuneration as stock options is based and details of the deferral period and the exercise price.

Variable remuneration in the form of stock options as described in this section does not exist.

75. The key factors and grounds for any annual bonus scheme and any additional non-financial benefits.

There are no other systems of annual bonus or other non-cash benefits besides those identified in the previous sections.

76. Key characteristics of the supplementary pensions or early retirement schemes for Directors and state date when said schemes were approved at the general meeting, on an individual basis.

There are no supplementary pensions or early retirement schemes.

As mentioned in section 69, the Remuneration Committee of Corticeira Amorim submitted to the General Meeting held on 26 June 2020 the remuneration policy for the members of the Board of Directors. This proposal, which was approved, expressly stated that the remuneration policy does not include the award of the benefits referred to in this note.

Although no retirement benefit systems similar to the ones described in this subsection were in place in the Company on the date hereof, should their implementation be proposed, the General Assembly shall assess the characteristics of the systems adopted and in force in the respective financial year (just as it assessed the non-assignment).

This bonus was awarded in view of the fact that in 2020 the Group celebrated its 150th anniversary, during a difficult year with extremely tough conditions due to the COVID-19 pandemic, although the Group continued to perform very well;
- A performance bonus calculated according to the degree of compliance with the Company's strategic targets, goals and initiatives and its three-year priority action plan and annual variations. It also embraces the Corporate Governance Code issued by the Portuguese Institute of Corporate Governance (IPCG), 2018 edition with the 2020 revision, and, although it is only a recommendatory framework, it is an important reference point of good practice, which is also available at www.cgov.pt.

In this report, Corticeira Amorim assesses its practices in relation to the aforementioned IPCG Corporate Governance Code on a 'comply or explain' basis. This report on Corticeira Amorim's corporate governance structures and practices is benchmarked against all legislation, regulations and recommendations to which our Company is subject.

[2.] Analysis of compliance with the Corporate Governance Code Implemented

CHAPTER I – GENERAL

I.1. Company Relations with Investors and Information

I.1.1. The Company must establish mechanisms that adequately and precisely ensure the production, treatment and timely disclosure of information to its corporate bodies, shareholders, investors and other stakeholders, financial analysts and the market in general.

Complies. Sections 55, 56, 57 and 58.

I.2. Diversity in the composition and functioning of corporate bodies.

I.2.1. Companies must establish criteria and requirements related to the profile of new members of the corporate bodies appropriate to the function to be performed. In addition to individual attributes (such as competence, independence, integrity, availability and experience), these profiles should consider diversity requirements, particularly to gender, which can contribute to improving the performance of the body and to the balance in its composition.

Complies. Part I - introduction to Chapter B., sections 19 and 26 (Board of Directors), sections 33 and 36 (Supervisory Board), section 11 (Board of the General Meeting) and sections 67 and 68 (Remuneration Committee).

Corticeira Amorim adopts policies and practices aimed at promoting diversity in governing bodies <https://www.amorim.com/en/investors/corporate-governance/board-members/>.

Corticeira Amorim is the holding company of an economic group based in Portugal, solidly established internationally, through subsidiaries, associate companies and joint ventures. The vast portfolio of products and solutions it continually develops responds to diverse markets and consumers.

The governance of Corticeira Amorim addressing the challenges arising from this framework, advocates a policy of diversity in the composition of its corporate bodies, in particular the Board of Directors and the Supervisory Board, as a way to:

- Promote diversity in the composition of the respective body;
- Enhance the performance of each member and, jointly, of each body;

- Stimulate comprehensive, balanced and innovative analysis and consequently allow informed and agile decision-making and control processes;
- Contribute to the increase of innovation and self-renewal of the Company, for its sustainable development and creation of value for the shareholders and other stakeholders in the long term.

Corticeira Amorim thus recognises the need to continuously promote diversity in its corporate bodies, particularly in the Board of Directors and the Supervisory Board, particularly in the following areas:

- Adequate academic qualifications and professional experience relevant to the performance of the specific corporate position which, in the respective corporate body as a whole, gather together the necessary competences to ensure the capable performance of the role of that body;
- Inclusion of members from different age groups, combining the know-how and experience of older members with the innovation and creativity of younger members, so as to enable the respective body to steer towards an innovative business vision and prudent management of risks;
- The promotion of gender diversity and, consequently, an adequate balance of sensitivities and style of decision-making within the respective body.

The result of the adoption of these policies is reflected in the composition of the members of their governing bodies, in particular those who are particularly covered by this recommendation.

1.2.2. The management and supervisory bodies and their internal committees must have internal regulations - in particular for the exercise of their duties, chairmanship, frequency of meetings, operation and framework of duties of their members - published in full on the Company's website, and detailed minutes of the respective meetings must be drawn up.

Complies partially.

As explained in sections 22 and 27, there are no formalised internal rules for the Board of Directors or the Executive Committee established from it, which becomes limited by the scope of the resolution of delegation that gave rise to it. As referred to in these sections, these two bodies act in a legal, statutory and procedural framework which, as a whole, already establishes appropriate functioning rules conducive to the adoption of best practices, in order to safeguard the efficiency of the Company and the creation of value for the shareholder.

The internal rules of the Supervisory Board exist and are available on the Company's website.

Detailed minutes of the meetings of these two bodies are drawn up.

1.2.3. The internal rules of management and supervisory bodies and their internal committees must be fully disclosed on the website.

Adopted with respect to the Supervisory Board (sections 22, 34, and 61); there are no formalised internal rules for the other bodies, so they are not disclosed on the Company's website.

1.2.3. The composition and number of annual meetings of the management and supervisory bodies and their internal

committees shall be made public through the Company's website.

Complies. Sections 17 and 23 (Board of Directors); sections 28 and 29 (Executive Committee); and sections 31 and 35 (Supervisory Board).

The information can be found at:

<https://www.amorim.com/en/investors/corporate-governance/board-members/>.

1.2.4. The Company's internal rules must provide for the existence and operation of mechanisms for the detection and prevention of irregularities and a whistleblowing policy - that guarantees adequate means for the communication and treatment of the same safeguarding the confidentiality of the information transmitted and the identity of the person who provided it - shall also be adopted when this is requested.

Complies. Section 49 and Section III - Internal Control and Risk Management of Chapter C - Internal Organisation, in particular section 54.

1.3. Relations between the Company bodies

1.3.1. The Articles of Association or other equivalent means adopted by the Company must establish mechanisms to ensure that, within the limits of applicable legislation, the members of the management and supervisory bodies are permanently assured access to all information and employees of the Company for performance evaluation, the status and the prospects for the development of the Company including, in particular, the minutes, supporting documents for the decisions taken, notices and archives of meetings of the executive management body, without prejudice to access to any other documents or persons who may be asked to provide explanations.

Does not formally comply. Although not provided for in the Articles of Association or other equivalent means, access to all the information and other elements referred to in this recommendation is fully and permanently ensured. Sections 21, 29 and 38.

1.3.2. Each body and committee of the Company must ensure, in a timely and adequate manner, the flow of information, starting with the respective notices and minutes, necessary for the performance of the legal and statutory powers of each of the remaining bodies and committees.

Complies. Sections 21, 29 and 38.

1.4. Conflicts of Interest

1.4.1. Through internal rules or equivalent means, members of management and supervisory bodies and internal committees are obliged to inform the respective body or committee whenever there are facts that may constitute or cause a conflict between their interests and those of the Company.

Complies. Sections 21 and 29 and pursuant to Article 3 of the Related Party Transactions Regulation.

(<https://www.amorim.com/en/investors/corporate-governance/corporate-regulation-and-policies/>).

With regard to the Supervisory Board, it should be noted that at Corticeira Amorim, this body is composed exclusively of independent members who are, therefore, not associated with any

specific interest group within the Company, nor are they under any circumstances likely to affect impartiality of analysis or decision-making.

I.4.2. Procedures must be adopted to ensure that the member in conflict does not interfere in the decision-making process, without prejudice to the duty to provide information and clarifications requested by the body, the committee or its members.

Complies. Sections 21 and 29 and pursuant to Article 3 of the Related Party Transactions Regulation.

(<https://www.amorim.com/en/investors/corporate-governance/corporate-regulation-and-policies/>).

I.5. Related party transactions

I.5.1. The management body should disclose, in the governance report or by other publicly available means, the internal verification procedure for transactions with related parties.

Complies. Sections 38, 89, 90 and 91.

I.5.2. The management body should report to the supervisory body on the results of the internal verification procedure for related party transactions, including transactions under review, at least every six months.

Complies. The businesses covered by Recommendation I.5.1 are communicated to the Supervisory Board on a quarterly basis. The value of these transactions is disclosed annually in the Corporate Governance Report (section 92).

CHAPTER II – SHAREHOLDERS AND GENERAL MEETING

II.1. The Company must not set an excessively large number of shares necessary to confer the right to a vote, and should state in the governance report its option whenever it implies a deviation from the principle that each share corresponds to one vote.

Complies. Section 12.

II.2. The Company shall not adopt mechanisms that hinder the passing of resolutions by shareholders, including fixing a quorum for resolutions greater than that provided for by law.

Adopted a practice that is considered equivalent to the proposal in this recommendation, i.e. to safeguard the same interests. Section 14.

As detailed in section 14, the **Articles of Association of Corticeira Amorim** enshrine a quorum for calling meetings to order/taking decisions that is greater than that established in law **in the following situations:**

- Restriction or withdrawal of pre-emption rights in share capital increases – the Company’s Articles of Association require that the Annual General Meeting be attended by shareholders accounting for at least 50% of the paid-up share capital (Article 7);
- Removal of a director elected under the special provisions set out in Article 392 of the Portuguese Companies’ Code - it is necessary that shareholders accounting for at least 20% of the share capital vote against the resolution to remove a Director from office (Article 17);

- In order that resolutions may be passed at an Annual General Meeting convened by shareholders, the meeting shall be attended by members holding shares equivalent to the minimum amount required by law to justify the calling of such a meeting (Article 22);
- Change in the statutory rules on the composition of the Board of Directors – this resolution must be approved by shareholders accounting for at least two-thirds of the share capital (Article 24);
- Winding-up the Company – such resolution requires the approval of shareholders representing at least 85% of the paid-up share capital (Article 33).

Therefore, non-compliance with this Recommendation and the requirement of a higher quorum than that provided for by the Portuguese Companies’ Code gives shareholders - particularly small or minority shareholders - an important role in a number of decisions that can have significant impact on corporate life (winding-up), corporate governance model (removal of a Director proposed by minority shareholders and change in the composition of the Board of Directors), ownership rights of shareholders (restriction or abolition of shareholders’ pre-emptive subscription rights in share capital increases) and an appropriate participation in Annual General Meetings convened by shareholders.

Thus, it is considered that keeping these conditions will contribute to enhance and protect shareholders’ rights and role in respect of significant corporate governance matters – values that the Corporate Governance Code seeks to protect.

II.3. The Company shall implement adequate means for shareholders to participate in the General Meeting remotely, in a manner commensurate with its size.

Adopted a practice that is considered equivalent to the proposal in this recommendation, i.e. to safeguard the same interests. The Articles of Association of Corticeira Amorim do not allow taking part in the shareholders’ General Meeting by telematic means.

As mentioned in the preceding paragraph, Corticeira Amorim favours the attendance in person of the shareholder at the General Meetings for the reasons given. The very high levels of shareholder participation indicate that this is also the favoured method of shareholders in their interaction with the Company and with the members of their governing bodies.

Therefore, taking this reality as a basis and taking into account the complexity associated with holding general meetings by telematic means (in particular material resources and technical means, control system and verification of shareholder status) as well as the risks of computer tampering and the associated costs for both parties to avoid these risks, Corticeira Amorim believes that it is appropriate to maintain current practice with regard to holding and participating in shareholders’ General Meetings.

This position and understanding does not preclude that, considering the specific framework for scheduling/holding the General Meeting, remote participation by shareholders is not possible. This was the case in 2020, due to the health crisis that severely impacted the world, Europe and, in particular, Portugal. This pandemic even led to the declaration of a state of emergency in Portugal and a set of measures was implemented in response to the pandemic, including reducing contact between people to the absolute minimum and restricting or even prohibiting internal and cross-border travel.

In view of these circumstances, Corticeira Amorim also implemented a contingency plan to protect all its stakeholders, including safeguarding the health and well-being of its shareholders.

Thus, the Annual General Meeting was held exclusively through telematic means and, to ensure the most ample conditions for conducting an informed vote, shareholders' right to vote and to information at the General Meeting could be exercised by electronic mail.

II.4. The Company must also implement adequate means to exercise the right to vote remotely, including by mail and electronic means.

Adopted a practice that is considered equivalent to the proposal in this recommendation, i.e. to safeguard the same interests. Section 12.

Voting by mail (postal ballot) is permitted. The votes, addressed to the Chairman of the Board of the General Meeting, must be received at the Company's headquarters on or before 6.00 pm of the third business day prior to the day set for the General Meeting and under the other conditions expressly announced in each Notice of General Meeting. The presence of the shareholder at the General Meeting revokes any vote it may have sent by mail.

Corticeira Amorim's Articles of Association allow electronic voting, provided that there are adequate technical resources available to enable checking the validity of electronic votes and ensuring their data integrity and confidentiality. If the Chairman of the Presiding Board decides that the technical requirements for voting by electronic means are met, such information shall be included in the Notice calling the meeting.

For Corticeira Amorim, the shareholders' General Meeting is an event of special relevance to the Company and its shareholders, as a privileged forum for communication between the Company (via the members of its statutory bodies) and its shareholders, encouraging transparency, joint reflection, the exchange of ideas and arguments and the alignment of interests. Thus, the high active participation of Corticeira Amorim's shareholders in the General Meetings motivates the Company to maintain the current system of participation and voting (in person and vote by mail) ensuring, on the one hand, the participation of all those who cannot or do not intend to participate in person and, on the other hand, enhancing the traditional participation in person which largely exceeds 80% of the total shares issued.

In addition, it is considered that (i) for the shareholder, the complexity associated with secure electronic voting is disproportionate to the vote by mail, which also allows for non-presential participation, which can even be revoked by the presence of the shareholder; (ii) both for the shareholder and for the Company, the resulting costs are materially relevant.

As mentioned in the previous section, this position and understanding does not preclude that, considering the specific framework for scheduling/holding the General Meeting, remote voting is not possible. This was the case in 2020. For the reasons already mentioned, to ensure the most ample conditions for conducting an informed vote, shareholders' right to vote and to information at the general meeting could be exercised by electronic mail.

II.5. The Company's Articles of Association that provide for the restriction of the number of votes that may be held or exercised by a sole shareholder, either individually or jointly with other shareholders, shall also foresee for a resolution by the General

Assembly (5 year intervals), on whether that statutory provision is to be amended or prevails – without super quorum requirements as to the one legally in force – and that in said resolution, all votes issued be counted, without applying said restriction.

Not applicable. Section 5 and 13.

The Articles of Association of Corticeira Amorim do not provide for the limit on the number of votes that each shareholder (either separately or jointly with other shareholders) is entitled to cast or exercise.

II.6. Measures that determine the payment or assumption of fees by the Company in the event of change of control or change in the composition of the Board and that which appear likely to impair financial interests in the free transfer of shares and free assessment by shareholders of the performance of the directors shall not be adopted.

Complies. The Company has not entered into any agreements that determine payments or the assumption of charges by the Company in the event of a change of control or change in the composition of the Board of Directors, except for the normal "change of ownership" clauses included in certain financing agreements entered into in the ordinary financing of operations and which, on a case-by-case basis, have been analysed and their acceptance considered the most appropriate for the Company's interests. The existence of a large liquidity reserve (credit lines contracted and not used (see Section 4) allows that, even if such a clause were to be exercised, the Company would still be able to timely finance itself and/or service its debt.

Therefore, (i) as this is standard market practice which, among other things, seeks to ensure that financing can be obtained on terms that are more advantageous to the Company; (ii) as financing means are guaranteed that are immediately available in the event of the exercise of these clauses; (iii) as this information is disclosed annually in the Company's accounts, it is considered that the contracting/maintenance of these clauses is not likely to jeopardise the free transferability of shares nor impair the free appraisal by shareholders of the performance of members of the Board of Directors.

No measures have been implemented specifically targeting the effects described in this recommendation. **Sections 4 and 84.**

CHAPTER III – NON-EXECUTIVE MANAGEMENT AND SUPERVISION

III.1. Without prejudice to the legal duties of the chairman of the board of directors, if he/she is not independent, the independent directors must designate a lead independent director from among them, namely: (i) acting as liaison with the chairman of the board of directors and other managers, (ii) ensure that they have all the necessary conditions and means to carry out their duties; and (iii) coordinate them in the evaluation of performance by the management body provided for in recommendation V.1.1.

Adopted a practice that is considered equivalent to the proposal in this recommendation, i.e. to safeguard the same interests. There are no independent directors, which prevents the adoption of the practice in the precise terms in which it is advocated.

However, it is considered that the objectives are fully taken care of (i) by the careful and collegial performance of the Board of Directors, both in its monthly meetings where all relevant issues for Company are discussed with the presence of its chairman (attendance record: 100%); (ii) the implemented system ensures, on the one hand, the

timely reporting of the Executive Committee to all members of the Board of Directors and, on the other hand, the preparation of meetings of the Board of Directors, scheduling them in advance and circulating the agenda of the same and respective supporting documents with the necessary advance for study and questions; (iii) the evaluation is done collegially, by all the members that make up the Board of Directors.

III.2. The number of non-executive members of the management body as well as the number of members of the supervisory board and the number of members of the committee for financial matters should be appropriate to the size of the Company and the complexity of the risks inherent in its activity, but sufficient to efficiently ensure the tasks entrusted to them, and the formulation of this suitability assessment must be included in the governance report.

Complies. Section 18 (Board of Directors), and section 31 (Supervisory Board).

III.3. In any case, the number of non-executive directors must be higher than that of executive directors.

Does not comply. Adopted a practice that is considered equivalent to the proposal in this recommendation, i.e. to safeguard the same interests. Section 18.

Although the number of non-executive directors is equal to the number of executive directors, they are considered to perform their responsibilities fully and efficiently – as described in a separate chapter of the Director's Report "Activity by non-executive members of the Board of Directors of Corticeira Amorim" - and it may also block any resolution of the Board of Directors.

III.4. Each company must include a number not less than one-third but always plural, of non-executive directors who meet the requirements of independence. For the purposes of this recommendation, a person who is not associated with any specific interest group in the Company nor is it likely under any circumstance to affect his or her exemption in terms of analysis or decision-making, shall be considered independent, in particular by virtue of:

(i) Having exercised for more than twelve years, on a continuous or interim basis, roles in any corporate body;

(ii) Having been a worker of the company or company with which it is in a control or group relationship in the last three years;

(iii) Having, in the past three years, provided services or established a significant business relationship with the company or company with which it is in a control or group relationship, whether directly or as a shareholder, director, manager or leader of a legal person;

(iv) Being the beneficiary of remuneration paid by the company or company with which it is in a control or group relationship, beyond the remuneration resulting from the exercise of the role of director;

(v) Living in a common-law union or being the spouse, relative or similar relationship in a straight line and up to the 3rd degree, inclusive, in a collateral line, of directors of the company, of directors of legal persons directly or indirectly holding qualifying holdings, or of directors of natural persons directly or indirectly holding qualifying holdings;

(vi) Being the holder of a qualifying holding or representative of a

shareholder having qualifying holdings.

Does not comply. Adopted a practice that is considered equivalent to the proposal in this recommendation, i.e. to safeguard the same interests. Sections 18 and 20.

Although there are no independent directors, non-executive directors have a wide and diversified academic and professional experience, as well as high standards of ethics and professional conduct that give added guarantees of performance in the pursuit of the greater interest of the Company and shareholders in general, to the detriment of private interests.

The existence of clear and mandatory internal rules governing transactions between related parties as well as the obligation to abstain from decisions in which they may have a particular interest, make it impossible for them to act for their own benefit, thus ensuring impartial professional activity.

III.5. The provisions of paragraph (i) of recommendation III.4 shall not preclude the qualification of a new director as independent if at least three years have elapsed between the termination of duties in any Company body and the appointment to the new role (cooling-off period).

Not applicable.

III.6. In compliance with the powers conferred upon it by law, the supervisory body shall evaluate and issue its decision on the strategic guidelines and risk policy prior to final approval by the management body.

Adopted a practice that is considered equivalent to the proposal in this recommendation.

Defining strategic guidelines and risk policy, as referred to in section 52, is the responsibility of the Board of Directors. Although there is no formal evaluation and prior opinion from the Supervisory Board with respect to their approval, it is a matter the Supervisory Board must be aware of and it may at any time request clarifications, make suggestions or request information on their implementation.

III.7. Companies shall have specialised committees for corporate governance, appointments and performance evaluation that are either separate or combined. In the event the remuneration committee provided for in Article 399 of the Portuguese Companies' Code has been created, and this is not prohibited by law, this recommendation may be complied with by granting this committee powers in the aforementioned matters.

Complies partially. The performance and remuneration assessment is the responsibility of the Remuneration Committee, elected by the shareholders (section 66).

There is no committee specialised in corporate governance or appointments, matters that, given the size of the Company and the fact that the Board of Directors has expertise in the same areas, are dealt with by the Board of Directors and/or Executive Committee.

CHAPTER IV – EXECUTIVE MANAGEMENT

IV.1. The management body must approve, through internal regulations or through equivalent means, the performance scheme for executives and the exercise by them of executive duties in entities outside the group.

Adopted a practice that is considered equivalent to the proposal in

this recommendation, i.e. to safeguard the same interests.

Although there are no internal rules formalised in the terms foreseen in this recommendation: (i) the Company's Articles of Association limit the powers of the Executive Committee to executing the decisions of the Board of Directors and to the day-to-day running of the company, including, inherently, administrative matters; (ii) there is a formal delegation of Board of Director duties to the Executive Committee which, together with the legislation in force, establish the performance scheme for the members of the Executive Committee, and (iii) there are clear and generally observed internal rules for the Board of Directors to have information on possible corporate positions, executive or not, in entities not related to the Corticeira Amorim Group.

IV.2. The management body must ensure that the Company acts in accordance with its objectives and must not delegate powers as regards the following: i) definition of the strategy and the general policies of the Company, ii) organisation and coordination of the business structure; (iii) matters which are to be considered strategic in view of their amount, risk or special characteristics.

Complies. Section 21.

IV.3. In the annual report, the management body explains how the defined strategy and main policies seek to ensure the long-term success of the Company and what the main resulting contributions are to the community at large.

Complies. Chapter 17. Annual Performance Assessment of the Consolidated Management Report and Section 5.3. Economic Performance of the Sustainability Report.

CHAPTER V – PERFORMANCE ASSESSMENT, REMUNERATION AND APPOINTMENTS

V.1 Annual Performance Assessment

V.1.1. The management body must annually assess its performance, as well as the performance of its committees and delegated directors, taking into account compliance with the Company's strategic plan and budget, risk management, internal operations and the contribution of each member to that end, and the relationship between the bodies and committees of the Company.

Complies. Chapter 17. of the Consolidated Management Report.

V.2 Remunerations

V.2.1. The Company must establish a remuneration committee, whose composition ensures its independence from management, which may be the remuneration committee designated under Article 399 of the Portuguese Companies' Code.

Partially adopted. Sections 66, 67 and 68.

V.2.2. Powers to set remuneration shall lie with the Remuneration Committee or the General Meeting, acting on a proposal from said Committee.

Complies. Sections 66, 67 and 68.

V.2.3. For each term of office, the remuneration committee or

the general meeting, on a proposal from said committee, shall also approve the maximum amount of all compensation to be paid to the member of any corporate body or committee due to the respective termination of office, and said situation and amounts shall be disclosed in the governance report or remuneration report.

Complies.

Payments arising from the termination of office of members of any of the Company's bodies or committees are those stipulated in the general law, in the absence of specific agreements that may allow the payment of other compensation; In the event of a termination of office before the end of the respective mandate, the Remuneration Committee is responsible for assessing and approving the compensation and its amount.

V.2.4. In order to provide information or clarification to the shareholders, the chairman or, in his/her absence, another member of the remuneration committee, shall be present at the annual general meeting and any other meetings if the respective agenda includes matters concerning the remuneration of the members of the corporate bodies and committees, or if such presence has been requested by shareholders.

Complies.

It is standard practice for the Remuneration Committee to be present or represented at the General Meetings. The Chairperson of this Committee was present at the shareholders' General Meeting of 26 June 2020, both on his/her own behalf and on behalf of the other members of the Committee.

V.2.5. The remuneration committee must be free to decide, within the budgetary constraints of the Company, on the contracting by the Company of the consultancy services necessary or convenient for the performance of its duties.

Complies. Section 67.

V.2.6. The remuneration committee shall ensure that the services are provided independently and that the respective providers will not be hired for the provision of any other services to the Company itself or to other companies that are in a control or group relationship without the express authorisation of that committee.

Complies. Section 67.

V.2.7. In view of the alignment of interests between the company and executive directors, a portion of their remuneration should be of a variable nature that reflects the sustained performance of the company and does not encourage excessive risk-taking.

Complies. Sections 69, 70 and 71.

V.2.8. A significant part of the variable component must be partially deferred over time for a period of not less than three years, associating it, necessarily, with confirmation of the sustainability of said performance, in the terms defined in the internal rules.

Partially adopted. Sections 69 and 72.

Payment of the variable component of remuneration, if any, may be made, in whole or in part, after the clearing of the accounts for the financial year corresponding to the entire term of office. Since the

term of office is three years, such deferral may not be for a period of more than three years.

V.2.9. When the variable remuneration includes options or other instruments directly or indirectly dependent on the value of shares, the beginning of the exercise period shall be deferred for a period not less than three years.

Not applicable.

Pursuant to the statement on remuneration policy approved at the shareholders' General Meeting, based on proposal of the Remuneration Committee, it is not the Company's policy to assign shares and/or stock option systems to the members of its corporate bodies, based on stock price changes.

V.2.10. The remuneration of non-executive directors shall not include any component whose value depends on the performance of the Company or its value.

Complies. Sections 77 and 78.

V.3. Appointments

V.3.1. The Company must, under such terms as it deems appropriate, but perfectly demonstrable, ensure that proposals for the election of members of corporate bodies are accompanied by a statement of the adequacy of the profile, knowledge and curriculum of each candidate for the role.

Complies.

The proposals to the shareholders' General Meeting for the election of the members of the corporate bodies are accompanied by a statement of the adequacy of the candidates for the role, namely through their knowledge and academic and professional curriculum, indicating their academic and professional competences, their professional career and relevant positions held or in currently being held, which show the adequacy of the profile, knowledge and curriculum of each candidate for the role in the Company.

V.3.2. Unless the size of the company does not justify it, the role of monitoring and supporting appointments of senior management must be attributed to an appointments committee.

Adopted a practice that is considered equivalent to the proposal in this recommendation, i.e. to safeguard the same interests.

Given the organisation of the Company's activity (i) in specialised Business Units, with integrated but autonomous activities, which respond to markets, challenges and promote non-homogeneous strategies, and also (ii) the size of the Company, the function of monitoring and supporting the appointment of managers is carried out by the Human Resources Department of the respective Business Unit or by the Human Resources Department of Corticeira Amorim (holding company).

V.3.3. This committee includes a majority of independent non-executive members.

Not applicable. There is no Appointments Committee.

V.3.4. The Appointments Committee shall make its terms of reference available and shall, to the extent of its competences, induce transparent selection procedures that include effective mechanisms for identifying potential candidates, and that those proposed have the greatest merit, are most adequate to the

demands of the function and promote, within the organisation, adequate diversity including in terms of gender.

Adopted a practice that is considered equivalent to the proposal in this recommendation, i.e. to safeguard the same interests.

Although there is no Appointments Committee as stated in V.3.2., in Corticeira Amorim the Human Resources Departments act in accordance to a set of internally established procedures that advocate and enable:

- The timely and adequate identification of the profiles required/compatible with a given management role;
- The conduct of the selection processes is based on the adequacy of the profile with a view to the function to be performed and criteria of professional merit;
- The appointment of senior management abides by the diversity policy of Corticeira Amorim (Introduction to Section B. in Part I of this report).

CHAPTER VI – INTERNAL CONTROL

VI.1. The management body must discuss and approve the Company's strategic plan and risk policy, including the establishment of limits as regards risk assumption.

Complies. Sections 52 and 54.

VI.2. The supervisory body must be internally organised, implementing periodic control mechanisms and procedures to ensure that the risks effectively incurred by the Company are consistent with the objectives set by the management body.

Complies.

The reporting and periodic control mechanisms implemented allow the Supervisory Board to monitor these matters; the control systems implemented by the Company, considered robust by the Supervisory Board, ensure that the risks incurred are consistent with the objectives set, particularly in the areas considered most critical, where there are perfectly established/implemented monitoring/control and mitigation plans (for instance, the forest intervention programme aimed at ensuring the availability of the raw material cork, or exchange rate developments). In addition, there is a robust culture of budget management control (which also serves as a scoreboard for evaluating the performance of the Group's upper management).

VI.3. The internal control system, comprising the risk management, compliance and internal audit functions, shall be structured in terms that are appropriate to the size of the Company and the complexity of the risks inherent to its activity. The supervisory body shall evaluate it and, within the scope of its powers to supervise the efficiency of this system, propose any adjustments that may be deemed necessary.

Complies. Sections 52, 53 and 54.

VI.4. The supervisory body shall give its opinion on the work plans and resources concerning the internal control system services, including the risk management, compliance and internal audit functions, and may propose any necessary adjustments.

Complies. Sections 38 and 50-52.

As can be seen in the sections mentioned above, the internal control system implemented at Corticeira Amorim relies on significant and productive interaction with the Supervisory Board, which, at any time, may request clarifications or propose adjustments that it considers necessary.

VI.5. The supervisory body shall receive reports drawn up by the internal control services, including the risk management, compliance and internal audit functions, at least with respect to matters concerning accountability, the identification or resolution of conflicts of interest and the detection of potential irregularities.

Complies partially. On a quarterly basis, the following is reported to the Supervisory Board in a specific report for this purpose: the analyses carried out at the internal control level, with respective conclusions and action plans implemented/under implementation in order to mitigate any detected non-compliance.

VI.6. The Company must establish a risk management function based on its risk policy, identifying

- i. the main risks to which it is subject in the performance of its business activity,
- ii. the probability of their occurrence and the respective impact,
- iii. the instruments and measures to be adopted with a view to their mitigation,
- iv. the monitoring procedures, with a view to their monitoring.

Complies. Section 54.

VI.7. The Company shall establish procedures for the supervision, periodic assessment and adjustment of the internal control system, including an annual assessment of the degree of internal compliance with the system, as well as the possibility of amending the previously defined risk framework.

Complies. Section 54.

CHAPTER VII — FINANCIAL INFORMATION

VII.1 Financial information

VII.1.1. The internal rules of the supervisory body must establish that it supervises the adequacy of the preparation and disclosure of financial information by the management body, including the adequacy of accounting policies, estimates, judgements, relevant disclosures and their consistent application between financial periods, duly documented and communicated.

Complies. Section 38.

VII.2 Statutory audit and supervision

VII.2.1. The supervisory body shall, by means of internal regulations, define supervisory procedures to ensure the independence of the Statutory Auditor, in accordance with the applicable general rules.

Complies. The Supervisory Board has established an internal procedure that covers these matters.

VII.2.2. The supervisory body must be the main liaison with

the statutory auditor of the company's accounts and the first recipient of the relevant reports, and is responsible, inter alia, for proposing the relevant remuneration and ensuring that the proper conditions for the provision of services are provided within the Company.

Complies.

It is the responsibility of the Supervisory Board to propose the Statutory Auditor and the respective remuneration, within the framework of the Remuneration Policy approved at the shareholders' General Meeting.

VII.2.3. The supervisory board must annually assess the work performed by the statutory auditor, its independence and suitability for the performance of the functions and propose to the competent body its dismissal or termination of the contract as to the provision of the services when there is a valid basis for said dismissal.

Complies. Section 38.
